
AGTIV® liquid products – Milestone Equipment Payment Program 2020 Season

- **AGTIV® POTATO • Liquid** should be applied with a Milestone Seed Treater for a uniform application on seed pieces.
- Premier Tech recommends an equipment that can be installed on a Milestone Treater to assure the compatibility with the **AGTIV®** product. The equipment consists of three (3) distinct parts: the Atomizing Disk (product code 710071), the Atomizing Hub (product code 710072) and the Mixing Paddles (product code 710073). The three parts must be purchased together for a total of approximately 2200\$.
- The **AGTIV®** user purchases the recommended 3 equipment parts for the seed-piece Milestone treater.
- Upon presentation of a proof of purchase for the Milestone parts, Premier Tech agrees to return, through the retailer, five percent (5%) of **AGTIV® POTATO • Liquid** purchases for the following two (2) seasons. The user will receive a refund or a credit note before November, each year.
- The total amount of the refund to the user will end once the total amount of payment for the equipment is attained. At all times, the equipment, its maintenance and functioning remain the responsibility of the user.
